Honeywell Howard Leight™ HL400™ Earplug Dispenser

Your choice in hearing protection

Honeywell is pleased to introduce the NEW Howard Leight HL400 earplug dispenser. The HL400 dispenser has been designed to accommodate dispensing the full line of Howard Leight disposable foam uncorded earplugs. The HL400 has been engineered to be lightweight and durable with a unique feature where the dispenser knob rotates in both directions – for easy earplug dispensing.

The HL400 dispenser is all about choice; from which earplugs to select, to how to refill the dispenser, and where the dispenser will be placed in your facility.

This new dispenser will eventually replace our Howard Leight LS400 disposable earplug dispenser; inventory on the LS400 will cease by end-of year, 2018.

Features & Benefits
The HL400 dispenser has maintained the best aspects of the LS400 but with some additional features and benefits.
- Durable plastic design is an economical choice for dispensing earplugs
- Can be mounted to a wall or tabletop or can be free standing
- Easy twist knob with 180˚ of access, makes dispensing earplugs easy
- Catch basin prevents earplugs from falling onto the ground
- Holds 400 pairs of Howard Leight disposable earplugs: MAX®, MAX® Small, MAXLite®, Laser Lite®, X-TREME®, FirmFit® and Multi Max®
- Dispenser can be refilled by either inserting a new prefilled canister, or reusing the empty canister and filling with earplugs by using the zip top bag

Transition Plan & Timing
For our valued customers who currently use the LS400 dispenser, we will continue to manufacture refill zip top bags of your favorite earplugs. We will stop inventory of the LS400 dispenser frame by the end of 2018. The LS400 will be available for purchase while supplies last. As you migrate over to the HL400 dispenser, please reference the SKU list in this document to see which part numbers are needed to refill your new dispenser. The zip top refill bags listed can be used with the existing LS400.

Take Advantage of our NEW Distributor Promotion!
The New HL400 Dispenser is now part of a Distributor Dispenser Program! This program enables partners to receive a Free HL400 Dispenser with prefilled canister when purchasing additional refill canisters. More information on the HL400 Dispenser Program can be found in the batch launch materials.
