SOTI CONNECT

BUSINESS-CRITICAL PRINTING MEETS BUSINESS-CRITICAL PRINTER MANAGEMENT

"Things of the Internet" are getting smarter and more connected. To keep up with ever-increasing customer demands, Enterprises are relying on industrial and mobile printers to improve their operational efficiency, safety and customer experience. However, unexpected maintenance costs and downtime of printers can turn it from a revenue driver into a cost problem. SOTI's IoT management solution is built for the enterprise and provides complete lifecycle management of the supported Honeywell printers within an organization, lowering the total cost of ownership (TCO) of their labeling operations and improving the return on investment (ROI) of their IoT initiatives.

Honeywell

PRINTER MANAGEMENT MADE EASY

SOTI Connect provides complete lifecycle management of Honeywell printers. Its highly flexible, data-driven architecture means new printers can be quickly supported and managed, thus reducing deployment time for IoT initiatives.

DEPLOY YOUR HONEYWELL PRINTERS QUICKLY AND CONSISTENTLY

Setup and standardize the performance of business-critical printing solutions to boost reliability, quality and the end user experience.

- Quickly setup and configure multiple Honeywell printers from a centralized interface to make it easy for IT administrators to support post-deployment with minimal effort.
- Install maintenance or full version firmware or app solutions that address bug fixes, patch vulnerabilities or enable new enhancements seamlessly.
- Setup alerts to monitor for printer statuses and automatically notify personnel when errors or pre-defined conditions occur.

MANAGE ALL PRINTER TYPES, SHAPES AND SIZES

SOTI Connect allows for centralized, user-friendly management of supported Honeywell printers.

- User-friendly interface, charts and dashboards provide real-time views of printer information and health.
- Reduce maintenance, repair and resource costs by remotely adjusting printer settings and instantly performing device actions on a single or a group of printers.
- Utilize automation rules to remediate issues by setting pre-defined conditions and pre-configured actions when those conditions are met.
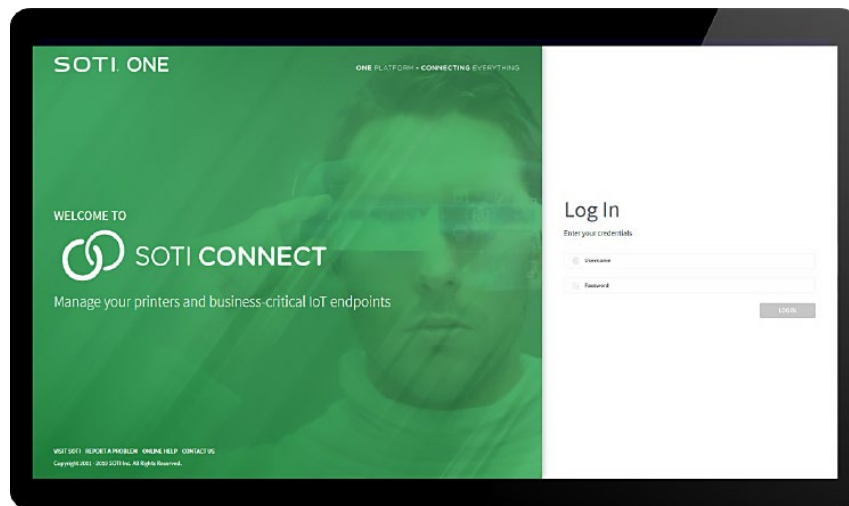

WHAT SOTI CONNECT CAN DO FOR YOUR BUSINESS

MANAGE YOUR BUSINESS-CRITICAL INDUSTRIAL, DESKTOP AND MOBILE PRINTERS

SOTI Connect addresses key printer management challenges with remote support features to reduce device downtime and workflow disruptions.

- Remote software updates enable instant installation of maintenance releases or new capabilities.

- Remote printer configurations and settings adjustments ensure print consistency and quality across a fleet of Honeywell printers.

- Remote support features provide instant access to printer endpoints and allow organizations to immediately perform actions to troubleshoot and resolve issues to prevent downtime.

- Automation rules automatically issue alerts and actions when pre-defined conditions are met on the device, greatly reducing printer downtime.

- Advanced data collection provides around the clock analysis of valuable printer status information to ensure printers reliably perform at full capacity.

SOTI ONE SIMPLIFIES YOUR BUSINESS MOBILITY AND IoT

The **SOTI ONE Platform** is an integrated suite of solutions designed to reduce the cost, complexity and downtime related to business-critical mobility and IoT. Comprised of seven revolutionary products, the SOTI ONE Platform helps businesses remove functional silos, eliminate downtime, build apps faster, manage all mobile and IoT devices in one place and deliver actionable insights. When everything is connected, the SOTI ONE Platform makes mobile and IoT business operations simpler, smarter and more reliable.

HONEYWELL – MOBILE COMPUTERS

The SOTI ONE Platform makes it easy to manage your Honeywell Mobile Computers. It simplifies the security and management of multi-form factor and multi-operating devices in your multi-purpose mobility ecosystem – all through a single, easy-to-use interface. Experience the best of rapid deployment and provisioning, enterprise integration, remote support and application management.
